SABIT BURAK CEBECİ

Risk Consultant | SEVESO & ATEX Specialist

Environmental & Process Safety Engineering

sabitburakcebeci@gmail.com | +353 83 084 2944 | Dublin, Ireland | linkedin.com/in/sbtbrkcbc

PROFESSIONAL PROFILE

Senior Environmental Engineer and Process Safety Specialist with 11+ years of progressive experience in SEVESO compliance, ATEX regulations, and explosion protection for Upper Tier Seveso sites. Proven expertise in developing Process Safety Management systems, conducting HAZOP studies, and delivering risk-based consultancy for pharmaceutical and chemical industries. Strong technical background in consequence modelling (DNV PHAST, Gexcon), regulatory compliance (COMAH, EU Directives), and safety report preparation. Currently serving high-profile international clients including Intel and leading pharmaceutical manufacturers.

CORE COMPETENCIES

- SEVESO Directive Compliance
- ATEX Equipment Certification & Inspection
- Explosion Protection Documentation
- Process Safety Management (PSM)
- HAZOP Studies & LOPA Analysis
- COMAH Regulations 2015
- DNV PHAST Consequence Modelling
- Risk Assessment & Mitigation
- Safety Report Preparation
- ISO 60079, ISO 45001, ISO 14001
- Emergency Response Planning
- Technical Report Writing

PROFESSIONAL CERTIFICATIONS & TRAINING

- Technical Report Writing – Engineers Ireland (Apr 2024)
- DNV SA-01 Consequence Modelling Software Training – DNV (Jan 2024)
- Effects/Risk & Risk Curves Modelling Software – Gexcon (Nov 2023)
- LOPA - Layer of Protection Analysis – CCPS
- HAZOP Training Certification – Seyir Akademi (2019)
- ATEX Equipment Certification – Seyir Akademi (2019)
- Explosion Protection Document Training – Seyir Akademi (2019)
- ISO 60079 Standards Training – Seyir Akademi
- ISO 45001:2018 OHSMS Certification
- ISO 14001 Environmental Management Systems

PROFESSIONAL EXPERIENCE

Senior Risk Consultant

AWN Consulting Ltd. | Dublin, Ireland | August 2023 – Present

- Provide process safety and environmental risk consultancy for Upper Tier Seveso sites across Ireland and Europe
- Conduct SEVESO consultancy services including safety report preparation, significant modification assessments, and regulatory compliance reviews
- Prepare and update Explosion Protection Documents (EPD) using DNV PHAST consequence modelling software
- Support high-profile clients including Intel and pharmaceutical manufacturers in achieving COMAH compliance
- Deliver technical report writing and regulatory submission support to Irish EPA and HSA

Process Safety Engineer

Guerbet (Pharmaceutical Manufacturing) | Dublin, Ireland | August 2022 – June 2023

- Developed and led the Process Safety Management System for an Upper Tier Seveso site
- Conducted significant modification assessments under COMAH Regulations 2015
- Updated and maintained site Safety Report and Explosion Protection Document
- Led Process Safety Risk Assessments including HAZOP and LOPA studies
- Managed Management of Change (MoC) procedures for plant, process, and system modifications
- Provided ATEX inspection reviews and EHS support for capital expenditure projects
- Assisted Emergency Response Team management and emergency planning activities

Safety Specialist & Environmental Engineer

Seyir Akademi (Leading Process Safety Consultancy) | Istanbul, Turkey | February 2019 – October 2021

- Delivered SEVESO consultancy for 30+ clients in chemical production, pharmaceuticals, and agricultural chemicals
- Prepared Explosion Protection Documents and Safety Reports applying European standards
- Conducted ATEX equipment site audits, inspections, and hazardous area classification reviews
- Performed occupational safety field audits and comprehensive risk assessments
- Managed explosion modeling and consequence analysis for major hazard sites
- Applied ISO 60079 standards for explosive atmosphere equipment selection

Safety Specialist

Momentum OSGB | Turkey | September 2017 – February 2019

- Provided occupational safety expertise consultancy across multiple industries including chemical plants, construction, manufacturing, and healthcare
- Conducted environmental risk assessments and safety compliance audits
- Developed safety management systems for chemical storage and processing facilities

Safety Measurement & Emission Reporting Specialist

Testmer Measurement And Testing Services Ltd. | Turkey | July 2016 – September 2017

- Conducted occupational health and safety environment measurements and exposure assessments
- Prepared emission and odour measurement reports in accordance with international standards
- Applied scientific calculation methods and quality management systems to reporting processes

Environmental Engineer

Metreküp Treatment Technologies | Turkey | April 2014 – April 2015

- Designed wastewater treatment plants for industrial facilities
- Provided water treatment consultancy for 13 factories across various industries
- Conducted in-water analysis, reporting, and on-site construction management

EDUCATION

Master's Degree (Thesis) - Occupational Health and Safety

Üsküdar University, Health Sciences Institute, Istanbul, Turkey | September 2018 – February 2020

Thesis: "The Necessity To Use Machine Safety Equipment Instead Of Safety Equipment Used In Passenger Elevators And Relevance Of Risk Assessment ISO Standards Applicability Comparison"

Master's Degree (Non-Thesis) - Occupational Health and Safety

Yeni Yüzyıl University, Health Sciences Institute, Istanbul, Turkey | September 2016 – February 2017

Bachelor of Science - Environmental Engineering (with 1 Year English Preparatory Class)

Ondokuz Mayıs University, Faculty of Engineering, Samsun, Turkey | September 2008 – July 2013

PROFESSIONAL MEMBERSHIPS

- American Institute of Chemical Engineers (AIChE)
- Engineers Ireland
- Chamber of Environmental Engineers, Turkey

TECHNICAL SKILLS & SOFTWARE

Process Safety: DNV PHAST, Gexcon Risk Modelling, HAZOP Facilitation, LOPA Analysis, Safety Report Writing

Regulatory Compliance: SEVESO Directive III, COMAH Regulations 2015, ATEX Directive 2014/34/EU, ISO 60079, ISO 45001, ISO 14001

Engineering: AutoCAD 2D/3D, Rhino 3D, Wastewater Treatment Design, Explosion Protection Systems

Languages: Turkish (Native), English (Professional Working Proficiency)
